

Terms and Conditions of Sale and Use of ski lift passes

Régie Autonome des Remontées Mécaniques de Montgenèvre

GENERALITIES

The Montgenèvre skiable domain is operated by "la Régie Autonome des Remontées Mécaniques" (RARM) the Autonomous Operator of Ski Lifts hereafter referred to as "the operator".

The acquisition of a ski pass implies the knowledge and acceptance by the person (hereafter referred to as the "Client" of the present and complete terms and conditions of sale and use of ski lift passes, without prejudice to the existing appeals procedures. The Terms and Conditions of Sale and Use of ski lift passes are supplemented by special conditions.

If a provision of the present conditions was to be found lacking it would be considered as being regulated in accordance with the sector of ski lifts for companies with their headquarters in France.

1 - SKI PASSES

The acquisition of a travel pass is obligatory to gain access to the ski lifts, apart from the carpet lifts at la Butte and the ski-lift at La Durance.

The **ski pass** consists of a **card** upon which is registered a travel pass.

Two types of ski passes can be distinguished: the "dated" ski passes on which the first and last dates of skiing are fixed, and the "non-dated" ski passes on which no precision regarding the first date of skiing is indicated.

For the "non-dated" ski passes, the numbers of days is counted without interruption consecutively (or non-consecutively for the 7 Day "Malin" ski pass) from the first passage through the first gateway at whatever time that passage is made.

The ski pass allows access, during the period of validity of the travel pass and following the terms and conditions specified below, to the ski lifts in service on the corresponding skiable domain (Grand Montgenèvre - Monts de la Lune or VIALATTEA).

During the period of validity of the travel pass, the ski pass is strictly personal and is neither transferable nor transmittable. It cannot be loaned either free of charge or for a charge.

1.1- CARD AND TRAVEL PASS

The travel passes are issued on a card allowing "hands free" access to the ski lifts after being checked by a monitor at the opening of the turnstile.

Two types of card are offered; the disposable, non-rechargeable and free of charge which is available for all ski passes, except the multi-day ski passes from a length of 6 days and the ski season ticket.

The rechargeable card, with a value of 3 € including tax, is available for the other ski passes and provides membership of the "Fidélité program". It is not refundable and is the property of the client. It is

recommended in order to support our efforts to respect the environmental (see Special Conditions of Distance Selling of Ski Passes.) The rechargeable cards can be re-used once or twice within a guaranteed maximum duration of two years. The guarantee applies only in the case of anormal use of the card; it includes the presentation of anew card in the case of a card being damaged.

2 - CONDITIONS FOR ISSUING TRAVEL PASSES

2.1 - PHOTO AND PROOF OF IDENTITY

The sale of a ski season ticket is made with a recent photo, of the face, without sunglasses or headgear.

This photograph will be kept by the Régie Autonome des Remontées Mécaniques de Montgenèvre (RARM) the Montgenèvre Autonomous Operator of Ski Lifts, in its computer ticketing system, throughout the duration of the validity of the ski pass and for a maximum of 12 months.

2.2 - TARIFF - REDUCTIONS AND FREE OFFERS

All the sales tariffs are displayed at places of sale. The prices indicated are with tax in Euros and take in to account the rate of VAT in force on the day of sale. They also figure on line at skipass.montgenevre.com.

Reductions and free offers are available for different categories of people according to terms and conditions available at points of sale and on presentation at the moment of purchase of necessary documents justifying a preferential tariff. No reduction or free offer will be accorded after the purchase has been made.

The age of the client to be taken into account will be the age on the day of the purchase of the ski pass.

For children aged less than 6 years, the travel pass is free of charge but obligatory, this travel pass should be identical to that of the adult accompanying the child for reasons of security.

3 - REIMBURSEMENT OF SKI PASSES

3.1 - PARTIALLY USED OR UNUSED SKI PASSES

3.2 - LOSS, DESTRUCTION OR THEFT

In the case of loss, destruction or theft, and **subject to proof of sale**, it will be possible to proceed with the replacement of the travel pass for the remaining period; the lost ticket will be cancelled.

In the case of loss, destruction or theft of a ski pass with a duration running between 2 and 15 days or a season ski pass, the duplicate of the ski pass shall be issued against the payment of application fees until €5 including VAT and the purchase of the new support (€3 incl. VAT). No replacement of any title for 1 day or less duration ski pass shall be possible.

3.3 - CLOSURE AND INTERRUPTION OF SERVICE

In the case of the ski lift service being interrupted, the holders of a paid valid ski pass may be granted, at the end of their stay "compensation" for inconvenience suffered, **only in the case of a complete and consecutive stoppage of the Montgenèvre ski lifts** for more than half a day. The client may benefit from, upon appropriate justification;

- Either an immediate prolongation,
- Or, by written request, a credit note in days of skiing to be used at the latest before the end of the second winter season following the one during which the compensation has been granted.
- Or a deferred reimbursement on the presentation of necessary documents of proof within two months, the reimbursement by bank transfer is to be carried out in the four months following receipt of the documents. This will represent the difference between the amount paid by the client and the number of operating days multiplied by the tariff for a daily rate.

The client cannot ask for an amount of money or a value of service superior to this daily rate of compensation.

Only the complete and consecutive stoppage of the ski lifts for more than half a day, will guarantee compensation for those in possession of the Montgenèvre, Monts-de-la-Lune and VIALETTEA ski passes issued by Montgenèvre. Just the interruption of the link with Italian ski domain because of bad weather is not enough to result in compensation.

3.4 - ILLNESS OR ACCIDENT AND OTHER PERSONAL EVENT

No reimbursement will be carried for travel passes in the case of accident, illness or any other personal event whatever the length of validity of the ski pass.

An insurance service can cover this risk and useful information about this can be obtained from our sales staff.

This fixed fine is equal to FIVE times maximum the value of the travel pass of which the amount is fixed by the regulations in force.
